Original Papers -

Survival and growth of *Cochlodinium polykrikoides* red tide after addition of yellow loess
Young Sik Lee, Jung Dong Kim, Woel Ae Lim and Sam Geun Lee..................................................929-932

Effects of fertilizer application to sweet corn (*Zea mays*) grown on sandy soil
Ferenc Orosz, Samuel Jakab, Tomas Losak and Katalin Slezak.......................................................933-938

Species composition and diversity of epipelagic algae in Balikli Dam Reservoir, Turkey
Saadet Koyali and Bulent Sahin........................................................................................................939-944

Synthesis and in vitro evaluation of 2,3-dibromo-3-methyl-1-phenylphospholane 1-oxide
for potential anti-proliferative effects
Michio Fujie, Satoki Nakamura, Kazuhide Asai, Junko Yamashita, Keita Kiyoji and Mitsuji Yamashita........945-950

Utilization of sodium borohydride (*NaBH₄*) in kraft pulping process
Abdullah Istek and Erdem Gonteki........................................................................................................951-953

Haematological changes in African lungfish, *Protopterus annectens* after aerial exposure
A.I. Okafor..............................................................................................................................................955-958

A study on the performance of a pilot scale A2O-MBR system in treating domestic wastewater
J. Rajesh Banu, Do Khac Uan, Ik-Jae Chung, S. Kaliappan and Ick-Tae Yeom........................................959-963

Effect of environmental factors on the productivity of crimean pine
(*Pinus nigra* ssp. *pallasiana*) in Sutculer, Turkey
Kursad Ozkan and Serkan Gulsoy........................................................................................................965-970

Effect of applying biosolids on the biodegradation of toluene and naphthalene contaminated soils
Hung Yueh Chang, Jui Min Hung, Yeong Shing Wu, Yi Ru Lin, Hung Yu Lai and Chih Jen Lu.................971-975

Dynamics of nitrogen in subtropical wetland and its uptake and storage by *Pistia stratiotes*
Sufia Irfan and Sharadendu................................................................................................................977-981

Effect of microbial activities on stored raw buffalo hide
P.N. Shede, P.P. Kanekar, A.V. Polkade, S.S. Sarnaik, P.K. Dhakephalkar, S.A. Chiplonkar and S.S. Nilegaonkar...983-988

Effects of sub-lethal heroin administration on thyroid stimulating hormone (TSH),
thyroid hormones (T₃, T₄) and thyroid gland of *Mus norvegicus*
Kaminidevi K. Bhoir, S.A. Suryawanshi and A.K. Pandey.....................................................................989-994

Biochemical composition of wild copepods, *Acartia spinicauda* and *Oithona similis*
from Parangipettai coastal waters in relation to environmental parameters
P. Perumal, M. Rajkumar and P. Santhanam.......................................................................................995-1005
